European Women's Lobby

HerStory

EUROPEAN WOMEN'S
LOBBY
EUROPEEN DES FEMMES

ABOUT

The European Women's Lobby (EWL) brings together the women's movement in Europe to influence the general public and European Institutions in support of women's human rights and equality between women and men.

We are the largest European umbrella network of women's associations representing a total of more than 2000 organisations in all EU Member States and Candidate Countries, as well as 19 European-wide organisations representing the diversity of women and girls in Europe. EWL envisions a society in which women's contribution to all aspects of life is recognised, rewarded and celebrated - in leadership, in care and in production; all women have self-confidence, freedom of choice, and freedom from violence and exploitation; and no woman or girl is left behind.

Vision

We believe in a Feminist Europe. We want a holistic, transformational socioeconomic vision, based on well-being, equality, social justice, and a powerful voice against women's poverty. We envision a culture in which women enjoy equal rights and participation in reimagined power and decision-making structures, in which all forms of violence against women has been eliminated, and women have been liberated from all forms of oppression. We envision a society in which women's contribution to all aspects of life is recognised, rewarded and celebrated - in leadership, in care and in production; all women have freedom of choice, self-confidence, and freedom from exploitation; and no woman has been left behind.

Mission

We are a credible source of expertise and experience on equality between women and men and women's rights, representing the diversity of the women's movement across the European Union. We represent an inclusive, confident, loud, independent feminist voice and bring real women's voices into the EU political arena. We build consensus and mobilise our members' collective experience to work on major issues affecting women, to realise women's rights, equality between women and men and social justice. We act as a catalyst connecting different actors and organisations to bring change at EU level.

HERSTORY

25 years of European Women's Lobby

Early beginnings

The origins of the European Women's Lobby can be traced back to a conference held in London in November 1987. At this conference, 120 women, members of 85 organisations and representing 50 million individual members, came together and adopted two resolutions. The first called for the 'creation of a structure for influence, open to all interested women's organisations, to exert pressure on European and national institutions to ensure better defence and representation of women's interest'. In a second resolution, the delegates called on the European Commission to 'lend its support for the organisation in early 1988 of a meeting with a view to the implementation of such a structure'.

The founding of the European Women's Lobby

In 1990, the European Commission granted its support for the foundation of the European Women's Lobby, with a Secretariat based Brussels, the location of the main European Union institutions. The EWL's founding members were the national coordinating organisations of Belgium, Denmark, France, Germany, Greece, Ireland, Italy, Luxembourg, Portugal, Spain, The Netherlands and the United Kingdom, as well as 17 large European-wide women's organisations.

The rationale for a European Women's Lobby

The European Women's Lobby was created in response to a growing awareness of the need to defend women's interests at European level since :

- The scope of the European Union's activities are continuously extending and affect areas with a direct impact on women's daily lives, particularly since the establishment of the internal market.
- It became urgent for women and their organisations to participate in the programmes established by the Union and to get acquainted with European legislation affecting them.
- The creation of such an organisation and its designation of lobbying also corresponds to the particular character of European-level decision-making process, which allows space for the creation of many organisations, founded to represent a wide range of interests and categories of women within civil society (including various economic sectors as well as trade unions, professional and social groupings).
- These organisations were responding to a real need on the part of the European institutions. Contrary to received ideas, the number of European officials is rather low compared to national institutions . The institutions therefore often call on experts in the course of their work, due in particular to the need for taking into account the diversity of the Member States' populations and legislations.
